PICKETT'S OHIO GROWN FRUIT TREES

For more than ninety years we have given special attention to Fruit Trees, growing them with utmost care and skill in our own large Nurseries. Pickett's trees are good trees and are sold at reasonable prices. We propagate our Fruits under careful conditions, selecting buds from bearing trees of outstanding merits. This is your assurance that our trees are pure and of the best strains.

Well cared for in the Nursery, the trees are thrifty and well-rooted. We dig them carefully, running the digger very deep so that you get all the feeding and fibrous roots and you know the trees can grow.

The farmer and gardener who has bearing Fruit Trees makes money. Plant some trees this year and every year.

The laws of nature make trees bear better in groups, so plant more than one variety of each fruit so they may cross pollinate.

Number of Trees or Plants for an Acre of Ground Set at Regular Distance Apart

1 by 1	43560	5 by 5	1742
2 by 1	21780	6 by 6	1210
2 by 2	10890	8 by 8	680

TREES

The size of all trees is given by height or caliper. The caliper of a tree is the diameter of the trunk just above the ground line. Our Shade and Flowering trees are planted in seven foot rows, thus giving ample room for proper development of root, trunk and top. Also, they are root pruned for better root development. Trees grown in this manner are sure to please you.

If you need help with your landscaping bring a rough sketch and dimensions to the Nursery with you and let our competent salesmen make suggestions. We are always glad, too, to send our landscape architect to look over your property and prepare complete plans. Avail yourself of this service.

EVERGREENS

Our fields are filled with beautiful varieties of Evergreens, giving you an opportunity to select just the type of trees most suitable for your planting. We will be glad to help you by offering suggestions for their proper arrangement.

Our Evergreens are sheared often to develop shapely tops and are always dug with a ball of earth, which is the only safe way to transplant them.

OUR LANDSCAPE SERVICE

If you need help with your landscaping bring a rough sketch and dimensions to the Nursery with you and let our competent salesmen make suggestions. We are always glad, too, to send our landscape architect to look over your property and prepare complete plans. Avail yourself of this service.

LET US HELP YOU

You will like the personal service that we take time to give you. We can help you in the selection of varieties of fruit best suited for your own individual needs, or we can assist you in your landscape problems.

Avail yourselves of our experience and training to attain a well planned and planted home. There are no charges for consultation or suggestions. If you will bring your plans, measurements, pictures, etc., we will be pleased to give you valuable assistance. Upon request we will send a trained man to look over your property. Careful selection and planting of the proper material assures satisfactory results. We also maintain a planting service. Do not hesitate to ask for any service you need.

Save without risk. You get both Quality and Economy when you buy here.
